

A close-up photograph of a golden Egyptian statue of a woman, likely a queen or noblewoman, wearing a traditional wig. The statue is positioned behind a window with a vertical metal bar, which is slightly out of focus. The background is a soft, warm, golden-brown color, suggesting an indoor setting with natural light. The statue's face is finely detailed with dark eye makeup and a serene expression. The texture of the gold is visible, showing some wear and tear.
